

## **FREQUENTLY ASKED QUESTIONS – ABOUT SCIENCE AND SEX**

*WomensSportsPolicy.org*

**Q16. Are advocacy groups correct when they say that any remaining advantages males have over females in sport are the result of cultural stereotypes and lesser opportunities for development, training, and competition?**

A16. No. They are wrong. Although stereotypes and opportunities can affect the degree of the performance gap between the best females and the best males, especially in third world countries, for almost all sports and events we know that the gap itself is biologically-based and immutable.
